CB15 CELLULITE BUSTER LARGE AREA WRAP

SKU: CB15

Cellulite Buster Large Area Wrap

As if the Meridian Pad wasn't enough, we had requests for a larger pad to provide more surface coverage. Our 9.5" x 8" Cellulite Buster Large Area Wrap has 2 - 16" straps attached. And if that isn't enough to wrap around a leg, arm, tummy or back, we made 24" extension straps an available option. Three connected sections make this pad easy to form around any curve.

Price: \$290.00

ANIMAL LIMB STRAPS AH04

SKU: AH04

Highly conductive **BioTrobe™** Rubber electrode lies against the hair. An internal woven wire runs the full length maintaining balance throughout the entire electrode for more balanced and consistent surface area performance. 1.5"W x 15"L straps may be overlapped on the limb to provide broad surface area coverage of frequencies. Wider and longer straps mean one size fits all! Our straps are fully lined with soft Velcro® loop that runs the entire length allowing for easier adjustments and faster connection time. Velcro® hook tabs are on the ends. The "Quick Release" connect/disconnect magnetic clasp never touches the hair so you have no metal touching your animal! "Quick Release" makes it easy to disconnect your animal should they need a break and again; provides breakaway security from the Limb Wires to prevent tugging and/or possible damage to equipment.

Price: \$145.00

ANIMAL 8' QUICK RELEASE LIMB WIRES AH05

SKU: AH05

Highly conductive slim wire harness with identifying color coded end connectors. 8' long wires allows for more discrete ease of movement and relaxed proximity between clients and SCIO. Additional adjustable wire looms control tangling. End to end wire welded design eliminates any mechanical break down that would inhibit signal performance. End connector magnets are encased in a plastic over mold design that attach easily to the rubber straps. Full one year warranty for repair or replacement.

Price: \$135.00
